ABOUT THE FLINT REGISTRY

People impacted by the Flint water crisis can participate in a voluntary secure registry that connects them to programs and other resources aimed at minimizing the effects of lead on their health, while promoting wellness and recovery.

**EVERY PERSON,
EVERY STORY IS IMPORTANT**

The Flint Registry is supported by a grant from the Centers for Disease Control and Prevention's (CDC) National Center for Environmental Health to Michigan State University College of Human Medicine's Division of Public Health.
